RUSSIAN CAVALRY SCOUTS AT HARBIN, MANCHURIA.

The pride of Russia's army is the cavalry, and it is in this branch of the service that she undoubtedly, man for man, far outclasses Japan. While the Russian horse soldier is not exactly the embodiment of gentleness and refinement, it cannot be denied that he knows how to ride, how to fight and how to take a setback without whining. In fact, it is said that the Russian cavalry is never so dangerous as it is immediately after a somewhat serious reverse. Gen. Kourapatkin's announcement that the Japanese have reached Wiju, Corea and the right bank of the Yalu river created no surprise in well-informed circles, where it is thoroughly understood that the Russians have no intention of making a stand in force east of the river.

The injured were taken to the Maywood hospital. The Indians were en route to Washington.

In the rear car were sixty three Indians belonging to Buffalo Bill's Wild West show en route for England. The cars took fire and it was necessary to chop the passenger coach almost to kindling wood. WEALTHY WOMAN WEDS SYRIAN WHO IS POOR

Spinster of 70 Is Married to Vendor of Oriental Jewelry Who Is Forty-Two Years Her Junior.

New York, April 7.—In the marriage of Gabriel Abu Kallil, 28 years of age, a Syrian who came to this country ten years ago, and Miss Margaretta Johnson of Buffalo, who in the twenty years of her spinsterhood has accumulated a fortune of more than \$500,000, there is a most remarkable union of youth with age.

After a courtship of several years the marriage was solemnized on Feb. 4 in the Church of St. Chrysostom by the Rev. Thomas Henry Bill, rector of the church. Since that time Mr. Kallil has continued to keep his apartment in the Hotel Marie Antoinette, while his bride has spent most of the intervening time in Buffalo. She is said to be closing up her affairs there, with the purpose of soon coming to New York to make her home with her husband.

It was while the young Syrian was selling Oriental jewelry in Buffalo that Miss Johnson met him. She soon became interested in his personality far more than in his wares. That was between five and six years ago. Although before she met Kallil nothing had been farther from Miss Johnson's thoughts than matrimony, she found that she had become so attached to the young man that her life was incomplete without him.

It appears to have been about two years ago that the subject of marriage first began to be discussed between them. Such of her friends as she took into her confidence warned Miss Johnson against taking the step and pointed to the difference in their ages and to the fact that while she was wealthy the Syrian was comparatively poor. But protests of all sorts were useless in turning her from her purpose.

Until a few days ago the marriage was kept secret. When Mrs. Kallil was asked why she had never married before she said she had not had time to think about it.

MORMON EDICT AND POLYGAMY

President Smith Declares Policy of the Latter Day Saints on the Subject.

MEETS APPROVAL OF THE CHURCH

Delegates in Conference Indorse the Action Which Forbids Plural Marriages and Inflicts Severe Punishment.

(Special by Scripps-Mellae.)

Salt Lake, Utah, April 7.—The death knell of plural marriages in Utah was finally and emphatically tolled just before the seventy-fourth annual conference of the Mormon church was brought to a close here Wednesday. Alarmed by the outburst of national indignation aroused by the revelations which sprung from the investigation of the protest against Senator Smoot, the highest official of the church in a manifesto couched in even more definite terms that the edict issued by President Woodruff in 1890, placed an irrevocable ban upon the practice of what is known, in every part of the world outside of the state of Utah, as polygamy.

Church Withdraws Sanction.

Hereafter there will be no plural marriages celebrated with the sanction of the Mormon church. Any officer or member of the church who shall take it upon himself to solemnize or enter into such marriage will be considered an outlaw and an outcast from the fold, and will expose himself to all the penalties imposed upon a transgressor against the stringent rules and regulations of the community.

This is the sum of the edict issued by the supreme head of the church, President Joseph F. Smith, in an official declaration of the policy of the Mormon church upon the subject of polygamy. President Smith's declaration was unanimously indorsed by the leading members of the church, who were in attendance at the conference. Text of Proclamation.

The text of the official declaration is as follows: "Inasmuch as there are numerous

reports in circulation that plural marriages have been entered into contrary to the official declaration of President Woodruff of Sept. 26, 1890, commonly called the manifesto, which was issued by President Woodruff and adopted by the church at its general conference Oct. 6, 1890, which forbids any marriage violative of the law of the land, I, Joseph F. Smith, president of the Church of Jesus Christ of Latter Day Saints, hereby affirm and declare that no such marriages have been solemnized with the sanction, consent, or knowledge of the Church of Jesus Christ of Latter Day Saints, and

"I hereby announce that all such marriages are prohibited, and if any officer or member of the church shall assume to solemnize or enter into any such marriage he will be deemed in transgression against the church and will be liable to be dealt with according to the rules and regulations thereof and excommunicated therefrom."

"JOSEPH F. SMITH,
President of the Church of Jesus Christ of Latter Day Saints."

Promise Support to Courts. This statement received the full indorsement of the church members assembled, who unanimously adopted the following resolution, introduced by Apostle Francis M. Lyman:

"Resolved, That we, the members of the Church of Jesus Christ of Latter Day Saints, in general conference assembled, hereby approve and indorse the statement and declaration of President Joseph F. Smith, just made to this conference, concerning plural marriages, and will support the courts of the church in the enforcement thereof."

BISHOP LIKENS STRIKES TO A LIFE IN INFERNO

Declares Their Influence on Families Tends to Wreck the Morals of the People—Favors Arbitration.

(Special by Scripps-Mellae.)

Washington, April 7.—"Strikes are hell," said Bishop Spaulding of Peoria, when he discussed before the house committee on labor the Foster bill for a national arbitration commission. The bishop said a distinguished Union general had likened war to hell and he would say that the modern strike was as bad.

"Strikes are a great evil," he continued. "Men who go out for a month or six weeks are transformed. When they return to work they are entirely changed individuals. The moral life of their families is ruined. Their children have learned to taunt fellow beings. The first aim of our government should be the good of human beings. That should be placed before the good of wealth or classes, and in this connection a solution of the strike problem should receive first consideration."

Arbitration Is the Remedy.

The bishop, who was a member of the anthracite coal commission, strongly favors arbitration in the settlement of labor disputes. He told the committee that he knew some of the large unions forced strikes to maintain their prestige. He warned the unions that public opinion would not much longer tolerate strikes. The loss of public sentiment would quickly be followed by the disruption of organized labor, the bishop declared, and he quoted John Mitchell as authority for the statement that unless given the support of public sentiment labor organizations must disintegrate. He did not want to be understood as being opposed to organized labor or as denying to labor the right to strike, but inexcusable strikes are indefensible.

ROB GOVERNMENT OF MONEY
AFTER TYING THE EMPLOYEES

Trading Post at Rossford Is Held up by Masked Men Last Night.

[Special by Scripps-Mellae.] Rossford, Idaho, April 7.—The government trading post here was held up by masked men on Wednesday night. They secured \$1,500 in gold and silver. They bound and gagged the employees in charge of the money.

ble and are doing labor much harm. He strongly recommended the creation of the commission proposed by the bill and he predicted for it public confidence.

Influence for Good.

"It would gradually loom up before the country, growing steadily in influence. It would be a school of public opinion," he said, "and would educate capital and labor to agree among themselves and settle their differences as wise men and not as fools."

Bishop Spaulding said it was not his opinion that the proposed tribunal ever would be called upon to determine the question of what is a legitimate profit on the investment of capital. Its province would be to settle disputes as to hours, treatment and pay of employees by the employer. Where a business did not permit of a living wage, according to the American standard of living, that business ought to close up, declared the bishop.

Gives Credit to Unions.

He did not believe, he said, in sympathetic strikes. The strike, he replied when asked if he would deny labor organizations the right to strike, was the one weapon of labor organizations, and to deny that right would be to deny the right to organize. Labor organizations, he said, had accomplished much good.

Representative McDermott said it would be impossible for the president to secure a committee of men such as that which settled the coal strike, and he did not believe a permanent tribunal would be a success.

Volney W. Foster of Chicago, the author of the bill, also appeared before the committee in advocacy of its passage.

GET READY FOR THE SPRING RUSH

TIMELY SUGGESTIONS TO AGRICULTURALISTS OF COUNTY.

WILL SAVE TIME NEXT MONTH

A Few Thoughts Upon the Existing Conditions of the Soil and How It Should Be Handled.

Don't be tempted to turn the stock out to pasture until the grass gets a good start, says a farm authority. At first grass is very weakly fed, without much nutriment, and when it is pastured down too closely in the early spring it gets a setback which keeps it short all the season.

Salt should be supplied liberally all the year around, but it is very essential to stock on grass. A few lumps of rock salt distributed around the pasture fields will furnish a supply at all times, and the stock will take what it needs. Rock salt is cheap and convenient.

Dairy cows should be supplied with pure water every day in the year. A running stream is all right, but a stagnant stock water pond is not. Do not allow the cows to drink stagnant water.

See to the fences while the ground is soft. It is easy to straighten a line of fence early in the spring before the ground settles, and then the fence will stand straight all the season. A little attention to the matter of repairing fences now may save loss later.

Put the farm tools and implements in good order before the busy season. Go over every plow, harrow and implement of every kind and see that they are properly prepared and put in perfect condition. It is poor economy to "tossle" up farm implements. Repairs should be attended to without delay.

Very frequently a little work will drain a considerable area that would not otherwise be dry enough to plow with the remainder of the field. If this is looked after now a crop may be secured on such land, when without this attention the loss of the land would be complete.

The poultry business is worth half a million dollars in this country and is rapidly increasing. The average farm flock may be doubled in productive capacity by improving the quality, and the quickest way to do this is to buy a good male for the breeding flock. A male bird of pure breeding may be bought at from \$2 up, and he will be the best investment that can be made by the farmer who has never tried to improve the quality of his flock. Get him now.

Hens do best when given entire liberty during the summer. Inclose the dooryard and garden and let the hens have free run of the farm.

Set plum and cherry trees in the poultry yard this summer, and this will save the necessity of spraying the trees. The hens will get enough of the insect enemies to prevent much damage to the fruit.

There are a good many old orchards in this country that are unproductive because they have been neglected. These may be brought back to profitable production by pruning and manuring the ground, plowing back the trees to encourage the growth, and other necessary attentions.

WISCONSIN CROPS ARE DISCUSSED

Acreage of Winter Wheat and Rye Is Much Reduced, According to Late Figures.

The state board of agriculture today issued its first monthly crop report for the season. It says that grains and grasses are in a very satisfactory condition, having passed through the severe winter with little injury on account of the protection afforded by the heavy snows. The acreage of winter wheat, which was small last year, is 14 per cent less now, and that of winter rye has fallen off 9 per cent. Meadows and grass pastures are 10 per cent better than last year, owing largely to the excellent results from seeding. The absence of contagious or epidemic diseases and the abundance of fodder enabled farmers to bring their stock through the winter in good condition.

With the exception of prices for horses, those for farm animals are not high, being hardly up to the average of the last five years. The average price of horses is \$125 per head, milk cows \$33 and sheep \$3.50. Fat hogs bring an average of \$1.75 per 100 pounds.

The prices of farm products are generally above the average of the last few years, those of grains and potatoes being especially high. Some of the average prices quoted in the report are: Corn, 50 cents per bushel; wheat, 85; rye, 60; oats, 37; barley, 50; beans, 32; potatoes, 25 cents; clover, 65 cents per pound; tame hay, \$8.50 per ton; butter, 22 cents per pound; eggs, 14 cents per dozen.

"The season must necessarily be late in allowing a commencement of active farm work," says the report, "and as hardly the usual amount of plowing was done last fall the spring will be a busy one. Farm help, however, is more plentiful than last season at slightly lower prices than were then offered."

JANESVILLE GIRL WILL BE WED SOON

Daughter of Captain and Mrs. E. G. Harlow To Be Married in June Next.

The marriage of Miss Harlow, daughter of Captain and Mrs. E. G. Harlow of 20 Ravine street to Mr. Frank G. Frost of Columbus, Ohio, is announced to take place next June. Miss Harlow for many years lived in Janesville with her parents but eleven years ago went to Freeport where she established the Harlow Business college. She was employed for some time in the offices of Wilson Lane and William Rucker in this city. In speaking of her approaching nuptials the Freeport Democrat says:

At the close of the afternoon session of the Harlow Business college yesterday, the pupils presented Miss Harlow and Miss Whittemore with a beautiful bouquet of flowers as a token of their friendship and good will.

After thanking the pupils, Miss Harlow took occasion to announce to her pupils that she would in the course of a couple of months sever her connection with the Harlow Business college and go to her home in Janesville, Wis., where in the early summer she will be united in marriage to Mr. Frank G. Frost, of Columbus, Ohio, general superintendent of the Rarig Engineering Company.

The announcement came as a surprise to a large number of her students, who expressed sincere regret that they must so soon part with a teacher who had endeavored herself to them in so many ways. At the very zenith of her success Miss Harlow steps out, having disposed of her interests here to Chicago parties who will take possession in the near future. Miss Harlow's successors are men of long business experience and there will be no interruption in the work of the pupils already enrolled.

We sincerely regret to part with Miss Harlow, although we offer our hearty congratulations on her future prospects. During her residence here she has been industrious and ambitious in a marked degree, and has demonstrated to the satisfaction of all that she was not only a business woman of rare attainments, but that she had ample ability and sound judgment to reinforce her ambition. Her many friends in Freeport and vicinity will join in wishing her peace, prosperity and abundant happiness in her future life.

BELOIT GROCER IS A BANKRUPT

George E. Sanger Has Signed a Voluntary Petition—J. A. Spoon & Co. a Creditor.

George E. Sanger, one of the leading grocers in Beloit, has filed a voluntary petition in bankruptcy with H. M. Lewis of Madison, referee for the western district of Wisconsin. It names his assets at \$3,000 with liabilities amounting to twice the sum. Fethers, Joffis & Mount of this city are attorneys for Sanger and the creditors are represented by T. D. Woolley of Beloit. J. A. Spoon & Co. of Janesville are creditors to the amount of \$100. An attempt to do a heavy business with limited capital is said to be responsible for the crash.

GETS ONE YEAR AT REFORMATORY

Madison Man Who Worked Janesville for Arrowing Orders, Goes to Prison.

H. H. Arbecker, who worked Janesville for orders for an arrowing house some time ago, pleaded guilty in the municipal court at Madison recently to the charge of receiving money under false pretenses, and was sentenced by Judge Donovan to a term of one year in the state reformatory at Green Bay.

When asked if he had anything to say why the sentence of the court should not be passed upon him, Arbecker said: "I have nothing to say; I am in the hands of the court and they can give me what ever they think is right, and I will take my medicine." He spoke in tremulous tones and wiped tears from his eyes with a white handkerchief.

Arbecker is a well-built fellow with bushy hair and said he was 23 years old. He traveled as a solicitor for the Gallagher Tent & Awning Co. of Madison, and was arrested and arraigned in court because he worked commissions on orders that were not bona fide, which he claimed to have taken in this city. District Attorney Frank L. Glaser was not moved by the man's tears and said:

"As to the man's weas, we know nothing. He committed a cold-blooded fraud in imposing on men who trusted him. He ought to be taught a lesson."

When asked what his business was Arbecker said:

"I am a jack of all trades."

He seemed pleased with the sentence and with a grin on his face thanked the judge.

They will arrive in Liverpool within six days and after crossing England will make the trip from Hull to the Scandinavian via the peninsula. The Braaten family expect to make their future home in Christiania.

SENATOR SPOONER IS THE CHOICE

It Is Decided That He Is To Be the Permanent Chairman of the Republican Convention.

The following dispatch comes from Washington and will be of interest to the residents of Wisconsin who glory in their senior senator's place at the national capitol: Republican leaders have the impression that President Roosevelt will have much to say about the selection and temporary chairman of the republican national convention in Chicago, and that it is his wish that former Secretary of War Ellihu Root shall be temporary chairman and Senator Spooner of Wisconsin permanent chairman.

According to the leaders, it is the policy of the party to have these chairmanships selected by the republican national committee in all cases where there is a contest over the nomination for the presidency, and this was done in 1896 when Senator Fairbanks was named as temporary chairman at St. Louis and Senator Thurston or permanent chairman. In 1900, however, President McKinley's nomination by acclamation was assured, and he expressed a desire that Senator Wolcott of Colorado be temporary chairman and Senator L. Rice of Massachusetts permanent chairman.

The same policy will be followed this year, and it is understood that Mr. Roosevelt hopes to see the selections made of the most fit men, east and west, to sound the keynote of the campaign in the convention. An effort has been made to bring about the selection of younger men for the places, and this gave currency to the idea that Representative Cushman of Iowa would be temporary chairman and Senator Beveridge of Indiana permanent chairman.

It is by no means uncertain that some part of this plan may be carried out in the event of one or both of the men who are understood to be the first choice of President Roosevelt not desiring to serve. It is a fact recognized by the party leaders that the men who speak for the party in the convention, announcing the party platform for the coming four years, should be the foremost men of the party.

AMONG THE WORLD'S WORKERS

News Notes From Various Sources of Great Interest to the Workingman.

As a result of the present meeting of representatives of various window glass workers' organizations in Cleveland, O., it is said to be practically certain that all will be amalgamated into one body, under the name of the Window Glass Workers of North America. It is said that at least five thousand of the seventy-five hundred union window glass workers have expressed their approval of the movement.

A Liberal-Radical demonstration, in which about 20,000 persons took part, against the introductions of Chinese labor into South Africa, was held in London last week. The procession included trades unions, labor societies and religious bodies.

The application of the new law establishing a minimum of ten hours for labor in the Department of the North France, is being out remarkably labor disturbances on the part of those employed by the large textile industries located throughout that department.

If R. 80, usually known as the "Anti-Injunction Bill," was introduced November 9, 1903. The following is the text of the bill:

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That no agreement, combination, or contract by or between two or more persons to do or procure to be done, any act in contemplation or furtherance of any trade dispute between employers and employees in the District of Columbia or in any Territory of the United States, or between employers and employees who may be engaged in trade or commerce between the several states, or between any Territory or Territories and any state or states, or the District of Columbia, or with foreign nations, or between the District of Columbia and any state or states or foreign nations, shall be deemed criminal, nor shall those engaged therein be indictable or otherwise punishable for the crime of conspiracy, if such act committed by one person would not be punishable as crime, nor shall such agreement, combination, or contract be considered as in the restraint of trade or commerce, nor shall any restraining order or injunction be issued with relation thereto. Nothing in this act shall exempt from punishment, otherwise than as herein excepted, any persons guilty of conspiracy for which punishment is now provided by any act of Congress, but such act of Congress shall, as to the agreement, combination, and contracts hereinbefore referred to, be construed as if this act were herein contained.

An agreement has been reached in the shoe trade controversy at Lynn, Mass., whereby the questions which resulted in a lockout of the turn workmen in 31 factories will be submitted to arbitration. The lockout, however, will not be terminated until a decision is reached by the State Board of Arbitration.

A satisfactory agreement which will avert a strike was reached recently at a conference between Baltimore & Ohio officials and representatives of the telegraphers. It is understood both sides made concessions.

The newboys of New York have organized an association.

"Let us help you to health"

King's Pharmacy and The Peoples Drug Company Want Every Catarrh Sufferer to Use Hyomei and Be Cured.

Statistics show that at least 97 out of every 100 persons in this state suffer from catarrh in some form. While the disease is one of the most common, it is also one of the most dangerous and offensive, leading to consumption and other diseases of the respiratory organs.

Prior to the discovery of Hyomei and its introduction in this section by King's Pharmacy and The Peoples Drug Company, every method of treatment had been found worthless. The discovery of Hyomei and its growing popularity has already reduced the percentage of those suffering from catarrh. This wonderful remedy is the simplest and most pleasing of treatments. Put 20 drops of Hyomei in the pocket inhaler that comes with every Hyomei outfit, and breathe it for a few minutes four times a day. Relief will be seen after the first treatment and a complete cure will soon follow. Breathe the Hyomei in this way, and the catarrhal germs even in the most remote air cells are destroyed. The irritated mucous membrane is soothed and healed, and perfect health restored.

King's Pharmacy and The Peoples Drug Company say to all catarrh sufferers, "Let us help you to health, we are confident Hyomei will cure, so confident, in fact, that we guarantee to refund your money if it fails. A complete outfit costs but \$1, and if it does not help you, your money will be returned promptly."

CARL BROCKHAUS,

...Forty Years Ago...

Janesville Daily Gazette, Thursday, April 7, 1864.—Personal.—Hon. I. C. Sloan left for Washington, D. C., this afternoon, having so far recovered from his recent illness as to be able to attend to his official business.

Railroad Matters.—The day express, south yesterday, p. m. left this station two hours behind time. It was detained by a freight train getting off the track.

Dr. H. P. Strong was elected mayor of Beloit at the late election. He is a brother of Wm. H. Strong of this city. His majority was 150—a very flattering vote, but well deserved.

Sick in the Hospital.—There are now 40,000 sick in the military hospitals throughout the country; 7,000

are in the hospitals in the Department of Washington.

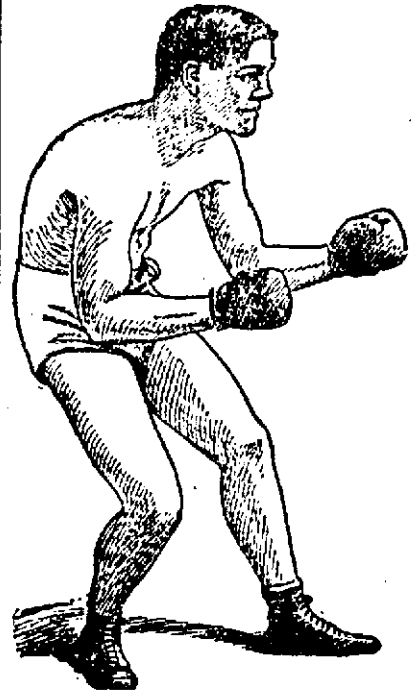

The sun that couldn't shine nor securely peep for the last fortnight, has ventured out today, dispensing warmth and gladness to animate and inanimate nature. It will make the farmers laugh, for they have been waiting for the promised seed time, and some of them we fear have been grumbling too. Such a succession of cloudy days, interspersed with rain and occasionally a snow squall, we have never seen as has taken place since a week ago last Saturday. The roads are in a very bad condition, and the ground is too thoroughly soaked to admit of tillage for some days to come. It will be a hurrying time when the farmers can at length get about their spring work.

Sporting Doings.

Terry McGovern Would Tempt Fate Again & Ivel Doctor, King of Bulldogs.

Well, the expected has happened—Terry McGovern of Brooklyn, once featherweight champion of the world, wants another battle with his two times conqueror, Young Corbett, the Denver surprise package.

It has often been said that an Irishman never knows when he is beaten, and Terry is a notable illustration, not to say victim, of the argument. Still

TERRY MCGOVERN, WHO WANTS TO MEET YOUNG CORBETT AGAIN.

We all admire pluck. We always knew Terry had it and to spare, but surely discretion is not the Brooklynite's strong point.

While in Springfield, Mass., recently Terry gave voice to his feelings on the subject of another fight with Corbett and added that he would take on the champion at 130 pounds. This is too much. At 127 pounds Terry would at least have a look in, but at the 130 pound mark Corbett would simply "eat him alive," like Babecock, the terrible exhibit of the circus side show feller.

"I will post \$5,000 of my own money to show Corbett that I am in earnest," says McGovern. "Corbett can name the date, the fight to be twenty or twenty-five rounds at 130 pounds ring side."

Joe Humphreys, the announcer, who is with McGovern, says that McGovern has no desire to force Corbett because the latter has a match on.

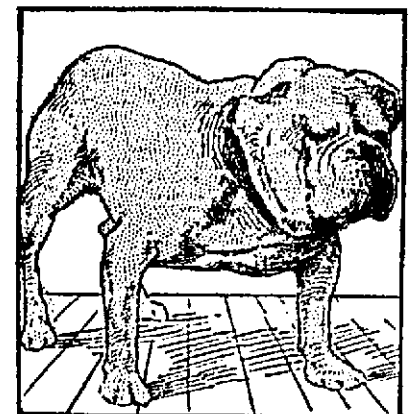

Humphreys says that Sam Harris, McGovern's manager, will bet any part of \$10,000 that McGovern can defeat Ben Jordan, the English featherweight champion, and that James C. Kennedy of New York has offered \$10,000 for a match between Jordan and McGovern in San Francisco in August.

"If Corbett does not take up my offer I will meet any legitimate featherweight after the close of my theatrical engagement in May," adds McGovern. "I will go to England to fight Jordan if good inducements are offered."

Ivel Doctor, the international champion bulldog, is considered the finest specimen of his particular breed that has ever been seen on the show bench. He has won about 500 prizes, including a record number of blue ribbons and many special cups and trophies, at the various kennel shows throughout England and this country.

Ivel Doctor is now owned by H. P. Knowles of Magnolia, Mass., and was one of the winning exhibits at the Westminster kennel show, New York, defending his title in one of the strongest bulldog classes that have ever been shown in this country.

Ivel Doctor is all that a champion should be, both in physical makeup and disposition. Although possessed of a face that would not tend to make one believe it altogether safe to be near the champion, Ivel Doctor never looks for trouble. He has been a show ring star ever since he was a puppy. Before coming to this country Ivel Doctor won as he pleased in his class, and when

IVEL DOCTOR, NOTED BULLDOG.

brought here he was at once stamped as a real champion and time after time has been awarded blue ribbons over old time favorites.

So often has the champion been shown in the ring that he seems to know just how to act when before the critical eyes of the judges. In this respect he has quite an advantage over younger dogs.

Ivel Doctor is a real aristocrat of the canine world, being bred in the purple. He is by General Roberts-Ivel Nana, both prize winners in England.

Kid McCoy's Ambition. Pugilist Kid McCoy, who is again in shape, believes that he can win the middleweight championship title.

Carnival of Venice. The carnival of Venice, which once was celebrated by the whole populace of that city, has now become a monopoly of the children.

HOW TO GAIN FLESH

The life of food is the fat within it—the more fat the more real benefit from the food; that is why cod liver oil is a powerful builder of flesh.

Scott's Emulsion of pure cod liver oil solves the problem of how to take cod liver oil. That is one reason why doctors have been prescribing Scott's Emulsion for all wasting diseases, coughs, colds and bronchitis for almost thirty years.

Nature, if left alone, will cure for itself; this might have been true at some prehistoric times, but since for ages it has not been left alone, but has been bound down and fettered by the observances and mandates of society, it can no longer cure for itself.

At no time does the truth of this appeal to us more strongly than at that period of a woman's life when she is about to become a mother. Nature must be assisted at this crisis, and for this very contingency

MOTHER'S FRIEND

has been devised that the muscles and tissues imprisoned and weakened as they have been by the dress of our higher civilization, may fall without undue suffering and possible lasting harm, the functions for which the Creator intended them.

Mother's Friend by its kindly offices softens and relaxes these parts and enables the mother to be, to pass through the parturient period and actual crisis with practically no suffering, toiled and an easy delivery of her offspring. Its application externally as a massage, and is a non-irritating, soothing, and most efficacious liniment. \$1.00. All druggists. Our book "Motherhood" sent free on request.

CAMPAIGN LESSONS.

There are some lessons connected with the local campaign that are worth studying. The first is that the city is safely republican when the party is disposed to be loyal. The second is that the third ward the strongest republican ward in the city is not reliable.

Mr. Ruger, the republican nominee for city attorney was entitled to every republican vote in the ward. His majority, instead of being 100 should have been at least 175 in his home ward. Nine votes would have saved him from defeat and results show that many times this number of his own party voted against him.

There was a combination of circumstances working against Mr. Jackson, the republican nominee for alderman in the same ward. Many of the arguments used against him were the silliest twaddle, advanced by men who admitted that they were simply used for campaign purposes. He was accused of being the water company, the man, who was seeking the Madison Interurban franchise, an enemy to the city, and a dangerous man to have in the council. Some of the men who opposed him are interested in public utilities and if they had thought twice before exposing their hand, modesty would have suggested a different course, both in reference to Mr. Jackson and Mr. Ruger.

The most unaccountable opposition, however, came from men who had been prominent in the work of the Municipal League. After acknowledging that the league was indebted to the republican party for success attained, they could not support a republican candidate who had been an active worker with them.

The Gazette will not attempt to explain these inconsistencies. The people generally are aware of influence that controlled. So far as Mr. Jackson is concerned, the republican party has no apologies to offer, and time will demonstrate that the people have a good representative in the council. He possesses integrity, ability and intelligence, and is neither the tool nor servant of corporations. The people will find him a faithful conscientious representative. In regard to Mr. Ruger, it will be admitted that he made a gallant fight, and was entitled to success. He will be the logical candidate two years from now, and Mr. Burpee has been given to understand that a life lease is not a part of the office.

Fred H. Sheldon should have been elected in the fourth ward, although the ward is safely democratic when lines are drawn. The city has elected good men and the will of the majority will be recognized without serious complaint.

NOT VERY CONSOLING.

If the governor can abstract any consolation out of the spring election, he is entitled to it. With his favorite defeated for the supreme bench and with his own county contributing to this defeat by a vote of two to one, his forces must realize that the people are a little weary of one man power.

The methods used to defeat Mr. Luse were so bare faced and contemptible that many of the governor's friends were disgusted, and their allegiance weakened. It will be found when the vote is analyzed that conservative republicanism is in the ascendancy, and it is safe to predict that it will continue to ascend, until the climax is reached at the state convention.

The situation in Rock county is gratifying. Over in the first district the cities of Evansville and Elberton were found in the conservative column, while in the city of Beloit, where the issue was well defined, the administration was defeated by over 400. The county will be a unit in the state campaign and it will not

require the flip of a penny to decide majorities.

What is true of Rock county is true of many localities throughout the state, and ordinary vision can trace the hand writing on the wall with reasonable clearness. The people of the state have been patient and long suffering, but they are finally aroused to the danger of the situation, and when opportunity is given they will speak emphatically.

It is well for the state that this change of sentiment is taking place. Theoretical government has never entered very largely into the minds of the people and they have been content to work together for the prosperity of the commonwealth. Class distinction and class hatred were unknown quantities four years ago, and when the history of the state is read by future generations it will be discovered that one misguided man, who attempted to guide the ship of state in the opening years of the century, proved himself to be an unsafe and incompetent navigator.

Men who have been hypnotized and captivated by fairy tales on reform are already wondering why they were deluded, and many of them are coming to their senses. The outlook for the state is encouraging and by the time the state convention is held conservative republicanism will be in control.

THE CAMPAIGN IS ON.

Now that the spring election is over, the state campaign will follow in earnest, and there will be nothing slow about the movement. Some questions have been settled, and the atmosphere is clearer.

The Luse-Kerwin issue, while supposed to be non-partisan, was as vigorously conducted in the interests of the governor, as was his campaign in the Third district against Babcock. Money was freely spent, game wardens and state employees were kept busy and nothing was left undone to secure the election of Kerwin.

His defeat is significant, for it means the defeat of the machine which has controlled the state for the past four years. The date of the state convention has been fixed for May 18th. This means a short sharp campaign and a quiet summer, and the people generally will feel relieved. The people will be just as competent to vote intelligently six weeks from now as they would be four months later. There are no issues in the state campaign except the harmony issue, and there is a general desire on the part of republicans that this will be brought about.

It is idle for the governor and his supporters to claim that his presence in the executive chambers for the next two years is vital to the interests of the state. He may be the father of reform, and may aspire to be God father of his visionary offspring, but the voters of the state are no longer in sympathy with his personal ambitions, and when the time comes, they will not hesitate to say so.

Four years of turmoil is enough for the state, and the republicans will not vote to continue it. We already have prosperity in spite of untoward influences, and are entitled to the peace that ought to go with it.

THE LEGISLATURE.

An early convention means early work that is usually scattered through the session. If but one caucus is held it means electing delegates to all conventions, and this will doubtless be done in many counties.

Next in importance to the state convention for nominating state officers is the legislative conventions for nominating assemblymen and state senators.

It is generally conceded by Rock county republicans that Senator Whitehead should succeed himself, and while the administration forces will oppose him, it is safe to say that his many friends will see to it that he is nominated and elected.

The same may be said of the candidacy of Captain Philby Norcross for the Assembly. Since the name of Captain Norcross was mentioned republican sentiment has crystallized, and the chances are that he will not be seriously opposed. He will make an ideal representative and the republicans of the district will be pleased to rally to his support.

If the republicans of the city want to know what beat their candidate for city attorney, they can satisfy curiosity by analyzing the Third ward vote. Out of some 200 split tickets, Mr. Ruger received some 40 votes. That's republican loyalty with a vengeance.

The people of Milwaukee seem perfectly satisfied with Mayor Rose administration. If the governor can get any satisfaction out of the Cream City election no one will envy him.

The governor's forces in Beloit hoped to capture the city by a still hunt. They came within 400 votes of it and still are not happy.

Many men who claim to be good republicans stayed away from the polls on Tuesday. A list of the crowd makes interesting reading.

Now that the game is protected in the statehouse park, it might be well to spend a little time at Koshkonong. There is nothing compulsory about the suggestion.

Is there any thing significant about the vote in Dane county? It sort of looks so from the outside.

Who's spending the money this

years on the campaign? Ask the administration.

There's many a slip 'twixt the forecast and the tally sheet.

Latest returns place Luse's majority at 8000.

Kerwin also ran.

PRESS COMMENT.

Evening Wisconsin: A notable incident of last night's fire at Madison was damage done by water. Since the Capitol fire, the hydrants appear to have some squirt in them.

Superior Telegram: Prof. Abner W. Small of the University of Chicago does not approve of the writings of John Bunyan. Poor Bunyan. But then, no man can expect to live forever.

Milwaukee Sentinel: If Wisconsin democrats will now attend to their own affairs, and leave the dubious to settle their disputes themselves, the republican controversy in this state will be disposed of in short order.

Chicago Record-Herald: Russian heroes are rewarded with crosses of St. George. No doubt the crosses are lovely, but new suspenders would probably come in handier.

El Paso Herald: The weather bureau tells of hail stones in New Zealand as big as eggs going through corrugated iron roofs like a bullet through butter and ruining the hides of horses they killed. New Zealand is welcome to them.

Atchison Globe: A woman tells her children fairy stories to quiet them, and her husband tells fairy stories to her with the same purpose.

Seranton Tribune: The Jackson of the Paris tribunal in the suit brought by the republic of Columbia to restrain the Panama Canal company from selling its property has removed the last barrier to the canal save that which can be lifted aside by the steam shovels.

Milwaukee Sentinel: In the pre-convention campaign that opens today the contest is between the people and the machine all right, and the machine is the one that has disgraced Wisconsin for three years.

La Crosse Leader-Press: Former Senator Pettigrew of South Dakota who threatens to bolt the democratic ticket if Grover Cleveland is nominated for president, has furnished the first ready strong argument we have seen advanced for Mr. Cleveland's nomination this year.

Oshkosh Northwestern: By the way it is a singular fact that The Marquette's Eagle-Star, which is one of Uncle Ike's papers, has not said a single word in favor of Candidate Kerwin during the progress of the present campaign. Is it possible that after Mr. Stephenson is not such a warm admirer of the governor's campaign methods?

Wausau Central Wisconsin: Mr. Baensch stands for all the Republican party stands for. The party principles are his principles. What has the primary election law at the present time to do with the governor? It is up to the people for ratification and if the people want it they will have it. Baensch or no Baensch, La Follette or no La Follette, and the election of either one of them will not figure in the matter. What is true of the primary law is true of other laws.

Post Washington Star: Hon. S. A. Cook has offered to pay the railroad fare and other expenses of people who may wish to visit his at his home in Neenah, and talk with him about his candidacy for governor. The half breed papers began criticizing his offer as being in bad taste, but they have stopped it for all sensible men of every political faith admit that it is a fair, honorable proposition, and if Mr. Cook is willing to bear the expenses of having his friends come and see him, and says so openly, it is to his credit.

Birchwood Press: It is the cursed desire for money which leads men to traffic in human life and souls. Theaters are burned, ships lost, trains wrecked, mines exploded, the price of antidote raised, food and drink adulterated; clothing shoddy, opiate drugs sold, honesty of manhood and virtue of womanhood bartered through greed of gain. Hell is no more hellish or gave more grossly than the civilized pagan who worships this golden calf. Does it pay? Not in life made selfish; not in death with pocketless shroud; not in eternity where Dives is damned.

TO PREPARE FOR
FOUR BIG MEETS

High School Track Team Has a Good Schedule in Prospect—Training To Begin Soon.

High school track-team athletics will soon begin training for the four big field meets in which they are to participate this spring. The first one, a dual meet with Evansville, comes on April 20. On May 14 the high schools in this declaratory district will contest for athletic honors at Whitewater. There will be seven or eight institutions represented. At Rockford on May 21, Beloit, Belvidere, Janesville, and other schools will take part in an interstate contest and on June 4 the annual state meet will be held at Madison. Harold Myers is captain of the local team. There is material for a first class relay team and it is expected that good form will be shown in the running events and the jumps. The local track men are not as handy with the weights as might be hoped but is not unlikely that considerable development along this line will be made in the next few weeks.

KEROSENE USED
WIDELY AS DOPE

Local Physician Summoned to Bed-side of Farmer Who Had Taken Some Last Night.

The death of a little child on Mole avenue from drinking and inhaling the fumes of kerosene this week startled a number of people, who, it appears have been in the habit of using the stuff for medicinal purposes. Last night a well known physician of this city received a telephone message to proceed with all haste to the home of a certain farmer in the town of Janesville.

Man Was in Bed
 When he arrived on the scene he found the man in bed, his face white with fear. In trembling voice he told the doctor that he had taken half a teaspoon of kerosene for a headache and a few moments afterwards he had chanced to read in the Gazette the account of what befell little Henry Westby. After that he had commenced to feel bad and as time wore on his condition had grown rapidly worse.

Used Faith Cure
 The physician did not give him any pills or use the stomach pump but effected a cure by reassuring the patient that the stuff would probably not injure him seriously. Apparently kerosene is used widely as a cure-all in the city and county though doctors deny that it has any merit. There is a superstition that it is the best thing in the world for sore throats and kindred maladies. It is recalled by city officials that a few years ago a saloon-keeper from beyond the five points while under arrest and despondent made a most ineffectual attempt to commit suicide by drinking the entire contents of a large lamp. Instead of cutting short the thread of life it had the very opposite effect and seemed to rather improve the man's physical and mental condition.

Card of Thanks
 We wish to thank our friends who so kindly assisted us during the day and night over our little child. And we would also thank them for the many beautiful flowers for which we are indebted to them.

PUSHES FORWARD IN THIBET
 Colonel Younghusband Hopes Soon to Effect a Settlement.

London, April 7.—Indian Secretary Brodrick has received a dispatch from Col. Younghusband, the political agent with the British expedition to Thibet, in which the colonel says he expects to reach Cyangtse, 100 miles from Lhasa, the capital of Thibet, shortly, and there meet the Chinese representative and high Thibetan officials and make a settlement by which further bloodshed will be prevented.

CURRENT NEWS NOTES

Easter Dances: The Royal Neigh-
bors and their friends enjoyed an
Easter party last evening. Smith &
Knoff's orchestra furnished the mu-
sic. Under the auspices of Olive Lodge
No. 127, D. of H., an enjoyable dance
was also participated in at the west
side hall. Baldwin & Rehfeld's or-
chestra played for the latter.

Yachting at La Crosse: W. S. Car-
gill of La Crosse, a former resident
of Janesville, has sold his pleasure
steamer "The Roann" to southern
parties and is building a new yacht
which will be one of the finest and
swiftest on the western border of the
state. The craft is to be launched
next week.

Art League: The members of the
Art league will hold a business meet-
ing in the science room at the high
school tomorrow afternoon at 3
o'clock. At 4 o'clock Prof. Wright

the Art of the Renaissance."

Woodmen Are Pleased: With the
increase of rates in the Modern
Woodmen organization this year the
700,000 members were promised that
the number of assessments would be
reduced to eight or nine. The Febru-
ary assessment was omitted in ac-
cordance with this promise and now
the announcement is made that the
April assessment will also be allowed
to lapse. Only 25,000 permanent
suspensions resulted from the institu-
tion of the higher rates. It was es-
timated that only \$750,000 would come
in under the new order but instead of
this \$830,000 was received.

Koshkonong Alive With Ducks: Ed.
Bingham says that Lake Koshkonong
is like old times this spring, as the
lake is fairly alive with ducks.

Easter Swells Church Funds: The
Easter offerings in the Janesville
churches were larger Sunday than
they have been in several years.
Probably it was because people have
had so little chance to spend their
money during the past forty days.
At any rate the collections at the
various churches in many cases ex-
ceeded any that have heretofore
been taken up. People put their
hands in their pockets with a smile,
and drew out their Easter offerings
with cheerfulness and generosity; a
combination which helps to swell any
treasury.

Appeared at Rockford. Mrs. Fran-
ces Whitaker, formerly of this city,
appeared at Rockford Monday even-
ing in the cast of "A Thoroughbred
Tramp." She was in the cast of
"Sidelacked," another of Elmer Wal-
ter's attractions, earlier in the sea-
son.

pletion.

corporation is capitalized at \$4,500 di-
vided into 450 shares of \$10 each.

Odd Fellows' hall.

Backed into the Street Car. Last
evening about 8:30 o'clock a horse
attached to a single buggy became
frightened at the passing street car in
front of Bert. Bailey & Co.'s store on

into the car. The horse fell down,
but no further damage was done.

NEW SCHOOL OPENS

Will Be Valuable Addition to the
City's Business.

A new business enterprise was in-
augurated Tuesday in the opening of
the Wisconsin Business college in the
Armory block. Messrs. Dale and
Gough, the proprietors, are men of
good foundation, who will become
identified with the business interests
of Janesville. They have conducted a
successful college at Stoughton for
some time past, and believe that the
enlarged field in and about this city
is sufficiently inviting to make the
conducting of a practical business
school successful. The opening day
of the college was most satisfactory,
the enrollment was large and the out-
look for the future most encouraging.
The quarters of the new school are
equipped complete with modern ap-
paratus, including seven typewriters.

A Communication
To the Editor: I notice in last
evening's paper, an article in which
the statement is made that there is
only one person in Janesville under-
standing piano repair work. I de-
sire to take issue on that point. Every
graduated piano tuner is also an
efficient repair man, capable fully of
caring for any deficiency found in the
instrument. I am a graduated piano
tuner and repair man, familiar with
all the details of the work and with
a four years' course of instruction
under the ablest teachers as a founda-
tion, together with much experi-
ence in the field. S. E. EGGTVET.

Appointed Rural Carrier: Mr.
George Warren has just received his
appointment as rural letter carrier on
route No. 9, his appointment to begin
on May 2. This route is a new one
and takes in the factories on the out-
skirts of the city. It covers the
ground that now has no delivery ly-
ing between the city carriers' routes
and the routes of the rural carriers.

George Lewis of Madison was in
the city for a few hours this after-
noon. Mr. Lewis is a prominent
democratic leader in the Capital city
and was much interested in seeing
Luce elected.

RURAL CARRIERS ARE THE GAINERS

CLAY AMENDMENT PASSED THE
SENATE YESTERDAY.

CAN ACT AS AGENTS FOR FIRMS

Gives the Carriers of Rural Routes
More Liberty in Actions Than
Otherwise Would Have Been.

The United States senate, after a
good deal of debate and a number of
incidental amendments, passed what
is known as the Clay amendment to
the postoffice appropriation bill. This
leaves in the bill the section prohib-
iting rural free delivery carriers from
acting as agents and soliciting orders
for newspapers or merchandise, but it
permits them, upon a request from
their patrons along the route, to re-
ceive subscriptions and take orders for
goods. Under this senate amendment,
coupled with the section the house
left in the bill, it will be possible for
newspapers and business houses to
canvass the rural free delivery routes
and supply customers with order
blanks which can then be collected
upon their request and money trans-
mitted through the postoffice carrier,
who thereby becomes the agent of
residents along his route rather than
an agent or solicitor of a newspaper
or business house in a distant city.

After July 1

The section left in the bill under
the senate amendment, together with
the amendment itself, if it goes
through conference committee as it
was passed, will read as follows: "On
and after July 1, 1904, letter carriers
of the rural free delivery service
shall receive a salary not exceeding
\$720 per annum and no other or fur-
ther allowance shall be made said
carriers; and on and after said date
said carriers shall not solicit business
or receive orders of any kind for any
person, firm or corporation, and shall
not, during their hours of employ-
ment, carry any merchandise for hire.
Provided, said carriers may carry
merchandise for hire and receive sub-
scriptions for and deliver newspa-
pers, magazines, and other periodicals
for and upon the request of patrons
residing upon their respective routes
whenever the same shall not interfere
with the proper discharge of their
official duties, and under such regula-
tions as the postmaster general may
prescribe, and not otherwise; and
provided further, that no carrier shall
refuse to deliver or to take orders or
subscriptions for any merchandise,
newspaper, or periodical requested by
any patron on his route subject to
the regulations of the postmaster
general and the laws of the United
States.

NEW PARTY IS A DECIDED MENACE

The Social Democrats of Milwaukee
Showed Unexpected Strength
in Recent Election.

As the smoke and excitement of
the election clears away from the
Milwaukee election it is made plain
that the increased vote of the social
democrats came about equally from
the democrats and republicans. To
the new party rose lost just as heav-
ily as Goff. Rose lost in every ward
in the city, as compared with his
vote of two years ago. Goff lost in
all but three over the vote given An-
son, the republican candidate two
years ago. In the first, eighteenth
and nineteenth wards, Goff made
slight gains. Rose's loss was about
5,500. Goff's about 3,000. Goff's heavy
loss was in the eleventh ward,
where 600 votes went from him to
Berger and Rose. Berger's gain in
that ward was 540. Mayor Rose lost
almost as much in the sixth ward,
where he was 570 votes short of what
he had two years ago. In other wards
his losses as a rule were much heav-
ier than Goff's. It is clear that, while
Berger cut into both parties heavily,
there was also a remarkable inter-
change of republican and democratic
votes, democrats voting for Goff and
republicans for Rose.

3,000 Votes by Mistake

The vote of the social democrats is
so heavy as to startle those who had
paid little or no attention to the party.
In addition to the 15,343 votes
which Berger is given he should be
credited for the social labor ticket. It
is admitted among politicians that
Berger's claim to these votes is good.
The social labor party never east
above 1,000 votes and of late years
has east only 200 or 300. That it
should jump to 3,000 without any
campaign is considered impossible.
With this credit Berger's vote would
be between 18,000 and 19,000, which
is probably the social democratic
strength in the city.

While the Milwaukee city ticket of
the new party carried only four
wards, it elected nine aldermen, four
superior judges, one justice of the peace
and two constables. In the council
it will have nearly as many aldermen
as the republicans, the latter only ac-
quired eleven, while the democrats elect-
ed twenty-six. In the county board
the republicans split nearer even, and
with the superiors in the towns will
have control of that body.

BEN F. HARDING PLEADED GUILTY

TO CHARGE OF STEALING BAR-
LEY AT SHULTS' FARM.

TWO YEARS AT HARD LABOR

In State's Prison at Waupun Was
Sentence Imposed.—Williams
Hearing Continued.

In municipal court this morning
Ben F. Harding pleaded guilty to the
information filed by the district at-
torney charging him with stealing a
load of barley from Walter Shults'
granary in the town of La Prairie on
the night of April 1. When asked if
he had anything to say why sentence
should not be pronounced, Harding
told the judge that he was sorry and
that the only excuse he had to offer
was that he was hard up and needed
the money that the sale of the grain
brought him.

Given Two Years

Harding was sent to Waupun for
two years for breaking into McClellan's
saloon in 1899. Since his release
he has been married and lived on a
farm up to a few weeks ago when he
moved to the city. His wife and
mother were in the court room and
their sorrow over the second commit-
ment of the wayward husband and
son was unfeigned and sincere. On
their account, Judge Field told the
man he would depart from the usual
custom of imposing a heavier sen-
tence for the second offence and give
him the minimum sentence for bur-
glary of a building in the night-time,
two years at hard labor in Waupun,
commencing today.

Williams' Hearing

The hearing of George Williams
who was formerly in the employ of
Peter L. Myers as a bill-poster and
was arrested last Monday on the lat-
ters complaint on the charge of abus-
ing a horse was set for April 21. One
of the witnesses for the defense is
out of the state.

Moran of the Lady Letty

By FRANK NORRIS, Author of "The Octopus," "The Pit," Etc.

Copyright, 1898, by S. S. McClure Company

Wilbur found the captain of the lifeboat station in the act of sitting down to a dinner of boiled beef and cabbage. He was a strongly built, well looking man, with the air more of a soldier than a sailor. He had already been studying the schooner through his front window and had recognized her and at once asked Wilbur news of Captain Kitchell. Wilbur told him as much of his story as was necessary, but from the captain's talk he gathered that the news of his return had long since been wired from Coronado and that it would be impossible to avoid a nine days' notoriety. The captain of the station (his name was Hodgson) made Wilbur royally welcome, insisted upon his dining with him and himself called up the chemists as soon as the meal was over.

It was he who offered the only plausible solution of the mystery of the lifting and sinking of the schooner and the wrecking of the junk. Though Wilbur was not satisfied with Hodgson's explanation, it was the only one he ever heard.

When he had spoken of the matter, Hodgson had nodded his head. "Sulphur bottom," he said.

"Sulphur bottom?" "Yes; they're a kind of right whale. They get barbed and a kind of marine lice on their backs and come up and scratch themselves against a ship's keel just like a hog under a fence."

When Wilbur's business was done and he was making ready to return to the schooner, Hodgson remarked suddenly: "Then you've got a strapping fine girl aboard with you. Where did you fall in with her?" And he winked and grinned.

Wilbur started as though struck, and took himself hurriedly away, but the man's words had touched off in his brain a veritable mine of conjecture. Moran in Magdalena bay was consistent, congruous and fitted into his environment. But how—how was Wilbur to explain her to San Francisco, and how could his behavior seem less than ridiculous to the men of his club and to the women whose dinner invitations he was wont to receive?

They could not understand the change that had been wrought in him. They did not know Moran, the savage, half tamed Valkyrie so suddenly become a woman. Hurry as he would, the schooner could not be put to sea again within a fortnight. Even though he elected to live aboard in the meanwhile, the very business of her preparation would call him to the city again and again. Moran could not be kept a secret. As it was, all the world knew of her by now. On the other hand, he could easily understand her position. To her it seemed simplicity itself that they two who loved each other should sail away and pass their lives together upon the sea, as she and her father had done before.

Like most men, Wilbur had to walk when he was thinking hard. He sent the dory back to the schooner with word to Moran that he would take a walk around the beach and return in an hour or two. He set off along the shore in the direction of Fort Mason, the old red brick fort at the entrance to the Golden Gate. At this point in the Presidio government reservation the land is solitary. Wilbur followed the line of the beach to the old fort, and there on the very threshold of the western world, at the very outpost of civilization, sat down in the lee of the crumbling fortification and scene by scene reviewed the extraordinary events of the past six months.

In front of him ran the narrow channel of the Golden Gate; to his right was the bay and the city; at his left the open Pacific.

He saw himself the day of his advent aboard the Bertha in his top hat and frock coat; saw himself later "braking down" at the windlass, the Petrel within hailing distance.

Then the pictures began to thicken fast: The derelict bark Lady Letty rolling to her capstern, abandoned and lonely; the "boy" in the wheel box, Kitchell wrenching open the desk in the captain's stateroom, Captain Stenerson buried at sea, his false teeth up-side down; the black fury of the squall, and Moran at the wheel; Moran, lying at full length on the deck, getting the altitude of a star; Magdalena bay, the shark fishing, the mysterious lifting and shuddering of the schooner, the beachcombers' junk, with its staring red eyes; Hoang, linked to the waist, gleaming with sweat and whale oil; the ambergris, the race to beach the sinking schooner, the never to be forgotten night when he and Moran had camped together on the beach; Hoang taken prisoner and the hideous silent of his teeth; the beachcombers, silent and watchful behind their sand breast-works; the Chinaman he had killed twirling and hiccoughing at his feet; Moran turned berserker, bursting down upon him through a haze of smoke; Charlie, dying in the hammock aboard the schooner, ordering his funeral with its "four piece horse"; Coronado, the incongruous scene in the ballroom, and, last of all, Josie Herriek, in white duck and kid shoes, giving her hand to Moran, in her boots and belt, hatless as ever, her sleeves rolled up to above her elbows, her white, strong arm extended, her ruddy face and pale, mild blue eyes gravely observant, her heavy brows, yellow as ripening rye, leaning over shoulder and breast.

A sudden explosion of cold wind, striking down blanketwise, and bewildering from out the west, made Wilbur look up quickly. The gray sky seemed maddening close over-

head. The bay, the "barred" channel of the Golden Gate, the outside ocean, were all whitening with crests of waves. At his feet the huge green ground swells thundered to the attack of the fort's granite foundations. Through the Gate the bay seemed rushing out to the Pacific. A bearded gull shot by, tacking and slanting against the gusts that would drive it out to sea. Evidently the storm was not far off. Wilbur rose to his feet and saw the Bertha Millner, close in, unbridled and free as a runaway horse, headed directly for the open sea and rushing on with all the impetus of wind and tide.

CHAPTER XIV. A LITTLE while after Wilbur had set off from the station, while Moran was making the last entries in the logbook, seated at the table in the cabin, Jim appeared at the door.

"Well?" she said, looking up. "China boy him want go ashore plenty big, see um den up Chinatown in um city?"

"Shore leave, is it?" said Moran. "You deserted once before without even saying goodby, and my hand in the fire, you'll come back this time dotty with opium. Get away with you! We'll have men aboard here in a few days."

"Can go?" inquired Jim suavely. "I said so. Report our arrival to your ship company."

Hoang rowed Jim and the coolies ashore and then returned to the schooner with the dory and streamed her stern. As he passed the cabin door on his way forward Moran hailed him.

"I thought you went ashore?" she cried.

"Heap find," he answered. "I'm other boy go up Chinatown; him tell Sam Yip. I think Sam Yip him same Kilem me. I no leave um ship two, three day. Him say I go Oregon. I stay topside ship. You want um cook, I cook plenty fine; stand up watch for you."

Indeed, ever since leaving Coronado the ex-beachcomber had made himself very useful about the schooner—had been, in fact, obsequiousness itself and seemed to be particularly desirous of gaining the good will of the Bertha's officers. He understood pigeon English better than Jim and spoke it even better than Charlie had done. He acted the part of interpreter between Wilbur and the hands, even turned to in the galley upon occasion and of his own accord offered to give the vessel a coat of paint above the water line. Moran turned back to her log, and Hoang went forward. Standing on the forward deck, he looked after the Bertha's coolies until they disappeared behind a row of pine trees on the Presidio reservation, going cityward. Wilbur was nowhere in sight. For a long time Hoang studied the lifeboat station narrowly while he made a great show of coiling a length of rope. The station was just out of hailing distance. Nobody seemed stirring. The whole shore and back land thereabout was deserted; the edge of the city was four miles distant. Hoang returned to the forecastle hatch and went below, groping under his bunk in his ditty box.

"Well, what is it?" exclaimed Moran a moment later as the beachcomber entered the cabin and shut the door behind him.

Hoang did not answer, but she did not need to repeat the question. In an instant Moran knew very well what he had come for.

"Hoang!" she exclaimed under her breath, springing to her feet. "Why didn't we talk of this?"

(To be Continued.)

The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, causing catarrh of the bladder, or the kidneys themselves break down and waste away cell by cell.

Bladder troubles almost always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy. It corrects inability to hold urine and seething pain in passing it, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases.

Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper. Do not make any mistake, but remember the name Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

TWO IOWA BANKS CLOSE DOORS

Both Owned by One Man, Who Says Depositors Will Be Paid. Marshalltown, Iowa, April 7.—The Exchange bank of Dow City and the Bank of Buck Grove, Crawford county, have failed, with reported total liabilities of \$500,000 and assets of only \$150,000. Both are owned by H. S. Greene of Dow City. Mr. Greene says the assets are between \$75,000 and \$100,000 greater than the direct liabilities and depositors will be paid in full. He says the direct liabilities aggregate only \$200,000. Speculation in Western cattle is the cause of the failure. N. Wilder of Dow City has been appointed receiver of the two banks.

SHERIFF LOSES HIS PRISONER

Latter Makes Dash on Way From Courthouse to Jail.

Shelbyville, Ill., April 7.—Henschel Sullivan, convicted of assault and battery with intent to commit murder in the second degree, escaped from Sheriff Theodore Lutz before receiving his sentence. He was charged with shooting John James at a dance last October, and the sheriff had brought him to the courthouse for the alleged purpose of hearing a motion for a new trial, which, so far as known, had not been contemplated. Returning to jail, Sullivan ran and had no trouble in outrunning the sheriff. He and the sheriff were last friends.

CRUCIFY JEWS IN THE BALKANS

Mobs Loot Houses and Murder Residents of Bulgarian Ghetto.

Vienna, April 7.—An outbreak of anti-Semitism has occurred at Lom Palanka, Bulgaria. A mob stormed the ghetto, looting houses and maltreating the inmates. Some of the victims of the mob were crucified. Of those injured six died. The authorities dispersed the mob and made an effort to suppress the news of the outbreak. A murder falsely reported to be a ritual murder caused the riot.

DOING THEIR DUTY.

Scores of Janesville Readers Are Learning the Duty of the Kidneys.

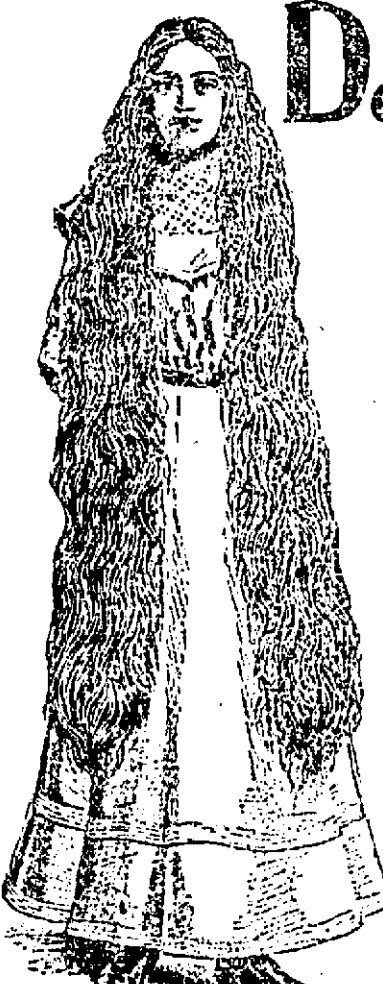

To filter the blood is the the kidneys' duty. When they fail to do this the kidneys are sick. Backache and many kidney ills Janesville people endorse our claim.

Urinary trouble, diabetes, Doan's Kidney Pills cure them all. L. Lawrence of 408 S. Franklin St., engineer at the Janesville Electric Light Co., says: "Seven years ago I injured my back by falling through a bridge near Atton into the Rock river. I was on a traction engine, its weight broke through and the whole thing went into the stream. Since that time my back has ached by spells sometimes very severely. If I caught cold it settled in my kidneys and if I brought a strain on my back lifting the result was a bad backache and sharp twinges of pain in my loins. I procured Doan's Kidney Pills and after I used them I was free from backache. I am in better health than any time since falling through the bridge."

Sold for 50 cents per box, by all dealers. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name Doan's and take no other.

Why Women Should Study Their Color

A pale face—a face without color, the lifeless look that gives a plain appearance to an otherwise beautiful woman or child—is the sign of anemia, and anemia means blood without vital power or color. It is corrected by nourishing the blood with the food elements of Father John's Medicine, pure and wholesome, making flesh and strength, its gentle laxative effect strengthens the stomach and corrects the digestion, which in turn gives increased vitality or power to the whole system. This strong vitality is the only protection against disease. It is the same with growing children—sometimes their growth is too rapid and they use up tissue faster than it is made. Then you should supply the food from which blood and tissue is made, and that is found in Father John's Medicine. This explains why it cures scrofula and skin diseases, all of which are due to thin and impure blood. We again warn you of the danger in violent medicines depending on alcohol and other weakening stimulants and injurious drugs for their temporary effect.

Danderine GREW THIS HAIR AND WE CAN PROVE IT.

Results from its use are QUICK and PERMANENT.

FRANCES MARIE KNOWLTON, 980 Garfield Boulevard, Chicago, Ill., Age 4 Years.

MISS LUCY MAY, 5030 Forestville Ave., CHICAGO.

LITTLE FRANCES MARIE KNOWLTON whose photograph appears herewith has a most beautiful head of golden hair, thicker than the crown of glory of most mature women. Frances is only four years old, and her hair hangs within 12 inches of the floor. The extraordinary hair strengthening qualities of Danderine has grown for this little girl the most admirable head of hair ever possessed by a child of her age in the world. The other two ladies whose photographs are shown here are certainly delighted with the results they are getting. DR. MILES' Anti-Pain Pills

Relieve and cure all distressing, tormenting aches and pains. This is the whole story, but perhaps you do not realize all this implies. It means that in a few minutes they will relieve nervous or bilious headache, stomach ache, neuralgia, rheumatism, lumbago, sciatica, pericarditis, bearing-down pains, toothache, or any other aggravating, nerve-destroying ache, pain or misery.

Nay, more, they will also relieve nervousness, irritability, dizziness, sea-sickness, car-sickness, distress after eating, etc.

"For forty years I have been subject to spells of sick headache, at times suffering untold agonies. I could not endure any excitement. Going where there was crowd, to church, and even visiting, always brought on one of these terrible spells. I tried numerous remedies and was treated by many physicians, sometimes relieved for a short time, but not cured, until I tried Dr. Miles' Anti-Pain Pills, and they have cured me. I always keep them by me, and when I feel symptoms of sick headache I take a pill to keep me all right. When I have worked hard, am tired and nervous, I take a pill and I soon feel better."

MRS. SARAH WATKINSON, Blairtown, Iowa.

Dr. Miles' Anti-Pain Pills relieve, not by paralyzing the nerves; but by soothing the irritated nerves, and by stimulating the secretions.

Finally, while they are the most effective remedy for the relief of all kinds of pain, they are absolutely harmless, and leave no disagreeable after-effects.

Sold under a guarantee that first package will benefit, or druggist will return your money. We stand back of this guarantee. 25 doses 25c. Never sold in bulk.

Light Harness Talk

M. W. Savage and H. K. Devereux Notable Factors in Horse Affairs.

Light harness horsemen are now working like the proverbial Trojans to put their trotters and pacers in form for the campaign now opening. Everywhere interest runs high and prospects for a successful grand circuit season were never brighter.

Two of the prominent figures in the wider scope of harness racing affairs will be M. W. Savage, owner of Dan

M. W. SAVAGE, OWNER OF DAN PATCH AND DIRECTUM.

Patch, 1:58 1/4, the peerless pacer, and Directum, 2:05 1/4, for many years the world's trotting champion, and Harry K. Devereux of Cleveland, the noted amateur driver and owner of John A. McKerron.

Mr. Savage is a type of the American sportsman produced in the great northwestern section of the United States. He is busily engaged in refuting the argument that great race horses cannot be produced in this section of the country.

In order that there may be no question as to the success or failure of the experiment, he has expended his money not only lavishly, but most judiciously. He has no stallions two of the greatest horses that ever wore harness, Directum and Dan Patch, the pacing king whose performances for the past three years under the able and skillful direction of Myron E. McHenry have caused the son of the "Iron Horse" to become well known wherever the light harness horse is known.

But Mr. Savage has not been content with securing these great stallions for his breeding farm. He has, with admirable discrimination, gathered together a choice band of brood mares, choice not only in blood lines, but great in performances, and the produce of the union of the truly famous mares and stallions will be watched with interest by breeders all over the world.

Mr. Savage has not been interested as a breeder on a large scale for many years, but he had always had a deep interest in the American light harness horse and has selected the foundation stock for his breeding farm so skillfully as to step at once into the front rank of breeders of the trotter and pacer.

Harry K. Devereux was one of the first to take an active interest in harness racing, and his efforts have played no inconsiderable part in the history of this phase of the trotter.

Having an intense love for a good horse, he has, by means of a pleasing personality, been able to interest all he has come in personal contact with.
